AFFIDAVIT OF LINDA MORGAN UNDER 37 C.F.R. § 1.132, ¶ 1

My name is Linda Morgan. I am a Metallographer at the J.W. Harris Co., and have held that position for the last 10 years. I have been employed by J.W. Harris Co. for a total of 10 years.

I have reviewed the PL 149319 reference, and was requested to make brazing pastes in accordance with the teachings of that reference. To form a paste using 80% alloy powder and 20% carrier, I made the following calculations:

For a 25g alloy sample:

alloy = 80% by mass

$25g = 80\% (x)$

where x = total mix

$x = 25g / 80\% = 31.25g$ total

total - alloy = carrier

$31.25 - 25g = 6.25g$ carrier

Carrier is: 80% water = $0.8 \times 6.25g = 5g$

18% glucose = $0.18 \times 6.25g = 1.125g$

2% Mc cellulose = $0.02 \times 6.25g = 0.125g$

total = 6.25g

I made a paste using 80% alloy powder (25g) and 20% carrier (6.25g) for each of alloys A-K, which were provided to me in powder form. Thus, I followed the teachings of the reference exactly as set forth therein.

Further declarant sayeth naught.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

IN WITNESS WHEREOF, I hereto set my hand and seal at Warren County, Ohio
this 31st day of August, 2005.
